Help secure your school

Atomwide is able to offer schools a complete CCTV system to help protect staff, pupils and the premises. It is an affordable security solution, tailored to school budgets, that is simple to manage and can be set up in next to no time.

Benefits of the Atomwide CCTV service

Support for up to 32 cameras per NVR* for schools of any size

High-definition video recording clearly identifies what you want to see

Scalable solution that can be added to as your school or need grows

Wide range of cameras available giving a choice for any budget

Power over Ethernet (PoE) allowing for greater flexibility and fewer cables

18TB of storage as standard

Infra-red illumination options allowing for night time monitoring

View recordings and live footage via a PC/laptop or mobile device

Monitor away from school via the ParentComms:Mobile app

Technical support Monday – Friday, 8am – 6pm

Remote system status monitoring, helping you keep track

Training available to show you how to get the best from your system

*Network video recorder (NVR)

Installation

Atomwide will manage the whole process offering advice on what set-up will work best for your school with full installation, training and support thereafter.

Furthermore, Atomwide can also offer an additional cabling service, should any cabling be required to enable the system.

If your school already has LGfL VoIP or WiFi you may be able to use existing switching allowing a further cost saving.

ANPR

The all-in-one, 'automated number plate recognition' (ANPR) addition to the Atomwide security range can offer schools increased efficiency, and further peace of mind for less than you might think.

Special ANPR cameras can automatically scan and record the number plates of vehicles as they arrive at and depart your premises. Notifications are then sent of arrivals and departures based on rules you create keeping you informed.

What our Schools say

“We'd have no hesitation in recommending Atomwide's CCTV service to other schools. It does everything we need it to for a great price. It's robust, easy to use and incredibly reassuring to have on-site.”

School Business Manager, New Woodlands School, Lewisham

“We have had Atomwide's CCTV since 2013 and cannot fault it. The first attraction was the cost which was considerably lower than alternatives. Functions such as saving a bit of footage or creating a photo are simple, and adding cameras to the system has been easily undertaken. Being able to see the pictures on a mobile phone can be very useful, and the very few technical problems we have encountered have all been fixed remotely and quickly. We are very happy to recommend Atomwide.”

School Business Manager, St Matthews School, Westminster
