

Parental Reporting Service

Online reporting to promote parental engagement

Incidents

Attendance

Behaviour

Reports

A secure website where parents can gain access to school reports and information pertaining to their children. Schools control what information is displayed to parents and the reporting pages form a secure and easy-to-use portal that encourages parental involvement in their children's education.

- Secure, easy to use and encourages parental involvement
- Provides up-to-date information on, for example, attendance, behaviour incidents and achievements
- Lets schools upload end of term or end of year reports
- Allows schools to post newsletters or announcements
- All data is securely exported from the MIS with visibility controls set by the school

Help keep parents engaged. For more information or to book an appointment with one of our experts, please see our website or get in touch:
